Skills

- SQL (SQL Server)
- Python (Pandas, Numpy, MatPlotLib, BeautifulSoup4)
- Microsoft Excel
- Microsoft Power BI

Projects

BANKING SYSTEM BI PROJECT | SQL & PYTHON > MURODKOPOLOV-ENG/BANKING-SYSTEM_PROJECT: TO UPLOAD MY PROJECTS

- Developed a comprehensive banking analytics solution to support customer, loan, and transaction monitoring
- Structured 30 tables in a Star Schema to enable efficient reporting and KPI calculations
- Generatedrealistic synthetic data using Python Faker
- Built SQLqueries, CTEs, and joins to calculate critical KPIs , including fraud detection, high-balance customers, and branch lan performance

BIKE STORE SALES ANALYSIS | SQL BI PROJECT > murodkopolov-eng/Bike_Store_Project: SQL-Based sales data analysis project with KPIs, views, and insights

- Engineeredand end-to-end SQL-based BI solution for a multi-store bike retail business
- Modeledtransactional data into a relational schema and automated data ingestion from CSV files
- Created analytical views and reusable stored procedures, and using JOINS to support KPI reporting and business insights
- Analyzed sales performance, staff productivity , regional trends and etc… across stores

DATA CLEANING PROJECT PYTHON > https://github.com/murodkopolov-eng/Data-Cleaning-project

- Cleaned and preprocessed a messy student dataset by performing comprehensive data exploration and quality checks
- Standardized and validated string, numeric, date, email, phone, JSON, and address fields for consistency and accuracy
- Removed duplicates, handled missing values, and normalized categorical data such as gender, course, and status
- Exported a fully structured, clean dataset ready for analysis, ensuring data integrity and reliability for downstream tasks.

CAR PRICES DASHBOARD Power BI > https://github.com/murodkopolov-eng/Car-Prices-project-Power-BI

- Built an interactive Power BI dashboard to analyze car sales performance, including revenue, pricing, and market value (MMR) insights
- Performed data cleaning and transformation, ensuring accurate and consistent data for analysis
- Created advanced DAX measures and KPIs to evaluate trends, price deviation, and top-performing brands
- Designed interactive visuals with slicers, drill-through, and time-based analysis to deliver clear and actionable insights

FLIGHT BOOKING DASHBOARD > murodkopolov-eng/Flight_Booking_Dashboard: Created a dashboard in Power BI with the help of Flight_Booking datas

- Developed an interactive dashboard in **Power BI** to analyze airline booking performance
- Created DAX measures including Total Bookings, Total Revenue, Average Ticket Price, and Average Passangers Age
- Analyzed revenue distribution by airline, travel class, and payment method
- Designed dynamic visualizations with slicers to support data-driven decision-making

Work Experience

PEER MATHEMATICS TUTOR (FREELANCE)
XOREZM, UZBEKISTAN | 2024

- Tutored fellow students in mathematics, explaining complex problems clearly
- Strengthened peers' analytical and logical thinking skills
- Assisted classmates with homework and exam preparation, improving their performance

Education

BACHELOR OF SCIENCE IN ECONOMICS – Tashkent State University of Economics – Tashkent, Uzbekistan
Majors / Focus: Economics (**I AM AN EVENING PROGRAM STUDENT AT UNIVERSITY. THUS I AM READY TO WORK FULL TIME**)

Languages

Uzbek – Native
Russian – B2/C1
English – C1
